All in favor, motion carried.

Account ledger received and filed.

There haven't been any treatments since July and the lake looks good. There was talk about the swimmer's itch and what causes it. Some people get it, and some people don't. Chris Meissner stated the temperature of the lake has been low. In June it was only about 72 degrees. Now its 78 degrees. Ray didn't make it to the meeting. No one has spoken to Ray since last month. Craig wanted to talk to him about the treatment for Stoney starwort to see if it worked. Terry, Ron, and Craig stated that the lake looks good. Chris stated that there are some weeds at the bottom of the lake, and he believes they are showing up because the lake level is low. They are mossy looking weed. Chris said it is covering the whole lake at the shoreline. Craig stated it's supposed to be good form the lake. Ron asked about the dead fish Chris was seeing last year. Chris isn't seeing the dead fish like he did last year.

Lucy Zeestraten is going to email Ray and get a written report to have on file.
